***Allowable Subject Matter***

Claims 1-32 are allowed. The allowability of claims 1-16 was addressed in a previous Office action filed 11/29/04 and is repeated below. Claims 17-32 incorporate the allowable subject matter pertaining to the original claim language of claim 19 which was addressed in a previous Office action filed 2/10/04 and is repeated below.

The following is a statement of reasons for the indication of allowable subject matter:

With regard to claims 1-16, the prior art of record fails to teach or fairly suggest a method for non-invasively measuring arterial blood pressure at a wrist of a patient wherein a changing external pressure is applied to the skin above a point where the radial artery crosses a most protuberant spot on a volar aspect of the radius of the wrist, in combination with all of the other limitations of the claims.

With regard to claims 17-32, the prior art of record fails to teach or fairly suggest an apparatus for measuring blood pressure comprising a wrist holding device including a support board shaped to adapt to a turning angle of between approximately 30 and 100 degrees of the wrist relative to the forearm attached to the wrist towards a medial side of the patient's body, in combination with all of the other limitations of the claims.
